ABOUT ME

I am actively engaged in expanding my proficiency in programming through the acquisition of skills in languages such as Python and C. Additionally, I am involved in web development, employing HTML, CSS, and JavaScript. I prioritize professionalism in my coding endeavors, emphasizing clean, well- documented code, adherence to best practices, and adept problem-solving techniques. Please visit my web portfolio to view my digital certificates

EXPERIENCE

Level 2-4 Programming Online Lecture
2023 – 2024

- Designing a structured syllabus covering VB.NET, HTML, CSS, JavaScript.
- Conducting live or recorded lectures, using real-world examples and hands-on coding sessions.
- Providing mentorship, answering queries, and giving constructive feedback on assignments and projects.
- Creating and grading quizzes, assignments, and exams to track student progress.
- Continuously updating course materials to reflect the latest web development and programming best practices.

EDUCATION

2019
Ekurhuleni West TVET College

Information Technology And Computer Science Level 2

I completed the Information Technology and Computer Science Level 2 course, which provided me with a solid foundation in computer systems, programming, and technology

2021
Ekurhuleni West TVET College

Information Technology And Computer Science Level 3

This course delved deeper into advanced topics like software development, project management, networking, and systems analysis and design.

2024
Ekurhuleni West TVET College

Information Technology And Computer Science Level 4

This is where I advanced my knowledge in key areas such as web development, database management, computer programming, more in system analysis and design, and data communication and networking.

DEVELOPMENT TOOLS

- githb
- VS Code
- Notepad++
- Vim Linux
- Visual Studio
